Abstract of JP2002023648

PROBLEM TO BE SOLVED: To provide a display device with which drop-out or destruction of a display panel is prevented and the cost is reduced.

SOLUTION: A display panel 4 which displays a picture and a metallic frame 7 which covers the peripheral part on the display panel 4 to hold the display panel 4 are provided, and two L-shaped frame members 7a and 7b are connected to constitute the frame 7, and they cover the rear side of the display panel 4 to hold the display panel 4 between them.
